## Cross-Section

Your proposed project must have a reviewable **Cross-Section Drawing(s)**. Refer to the attached sample drawing for an acceptable format. This plan must contain the following information checked below to be considered reviewable by the Building Department. For additional information, refer to the *Residential Plan Review Reference Sheet*.

|  |   |
|--|---|
|  | Plan must be legible, fully dimensioned or to scale.                                    |
|  | On additions or alterations, all new work must be clearly designated.                   |
|  | Show existing areas adjacent to new work.   |
|  | Provide foundation footing size and distance below grade.                               |
|  | Provide foundation wall dimensions (proposed height and width).                         |
|  | Show all foundation steel reinforcement.  |
|  | Show final grade around building, including wood to earth separation.                   |
|  | Show material types, sizes, spans and spacing of floor joists; show bearing points.     |
|  | Show material types, sizes, spans and spacing of beams; show bearing points.            |
|  | Show under-floor clearances and access.   |
|  | Show slab thickness.  |
|  | Indicate method of wall framing, stud sizes and spacing.                                |
|  | Show all wall heights.  |
|  | Show wall bracing.  |
|  | Show ceiling joists and rafters or trusses; include all spans, spacing; bearing points. |
|  | Show all roof, floor and wall sheathing.  |
|  | Show wall finish (interior and exterior).   |
|  | Provide type of roof covering.  |
|  | Show all insulation values in walls, slab, floors and ceilings.                         |
