<p>Page C-10</p>	<p>Figure C-1: SKIA Zoning Map</p>	<p>The Zoning Map should be updated to exclude one General Industrial parcel: (tax parcel number 122301-1-010-1002) from the PSIC-Bremerton Subarea Plan boundary.</p> 	<p>Due to critical areas near and within the site, access to the parcel is from Sunnyslope residential area. Thus any proposal for Industrial use on the site will impact that residential community. Staff has proposed to remove it from the PSIC-Bremerton boundary and rezone it as Low Density Residential zoning. Replace page with revised map – it has been included as Exhibit ____-1.</p>
