

## Addendum H – Vendor List Instructions

### Application for Special Event

**REQUIRED** for all events that have vendors servicing the event and/or participating in the event.

Information about your vendors is required as part of your Special Event Permit Application. To assist you in organizing and presenting the information, the Special Events Office has developed a Vendor List spreadsheet template. Download the template file from the Special Events Addendums page. Your vendor lists will be reviewed by the Special Events Office.

**Instructions** Below is a description of each column in the template spreadsheet. Use a separate row for each vendor. All vendors must be listed. If you cannot use the template file, please create your own document that contains the same column heading names and described information. It is acceptable to add additional columns to your document, but the document must contain all the information below.
