

CITY SNOW AND ICE PROCEDURES

Level 1 – Frosty Morning

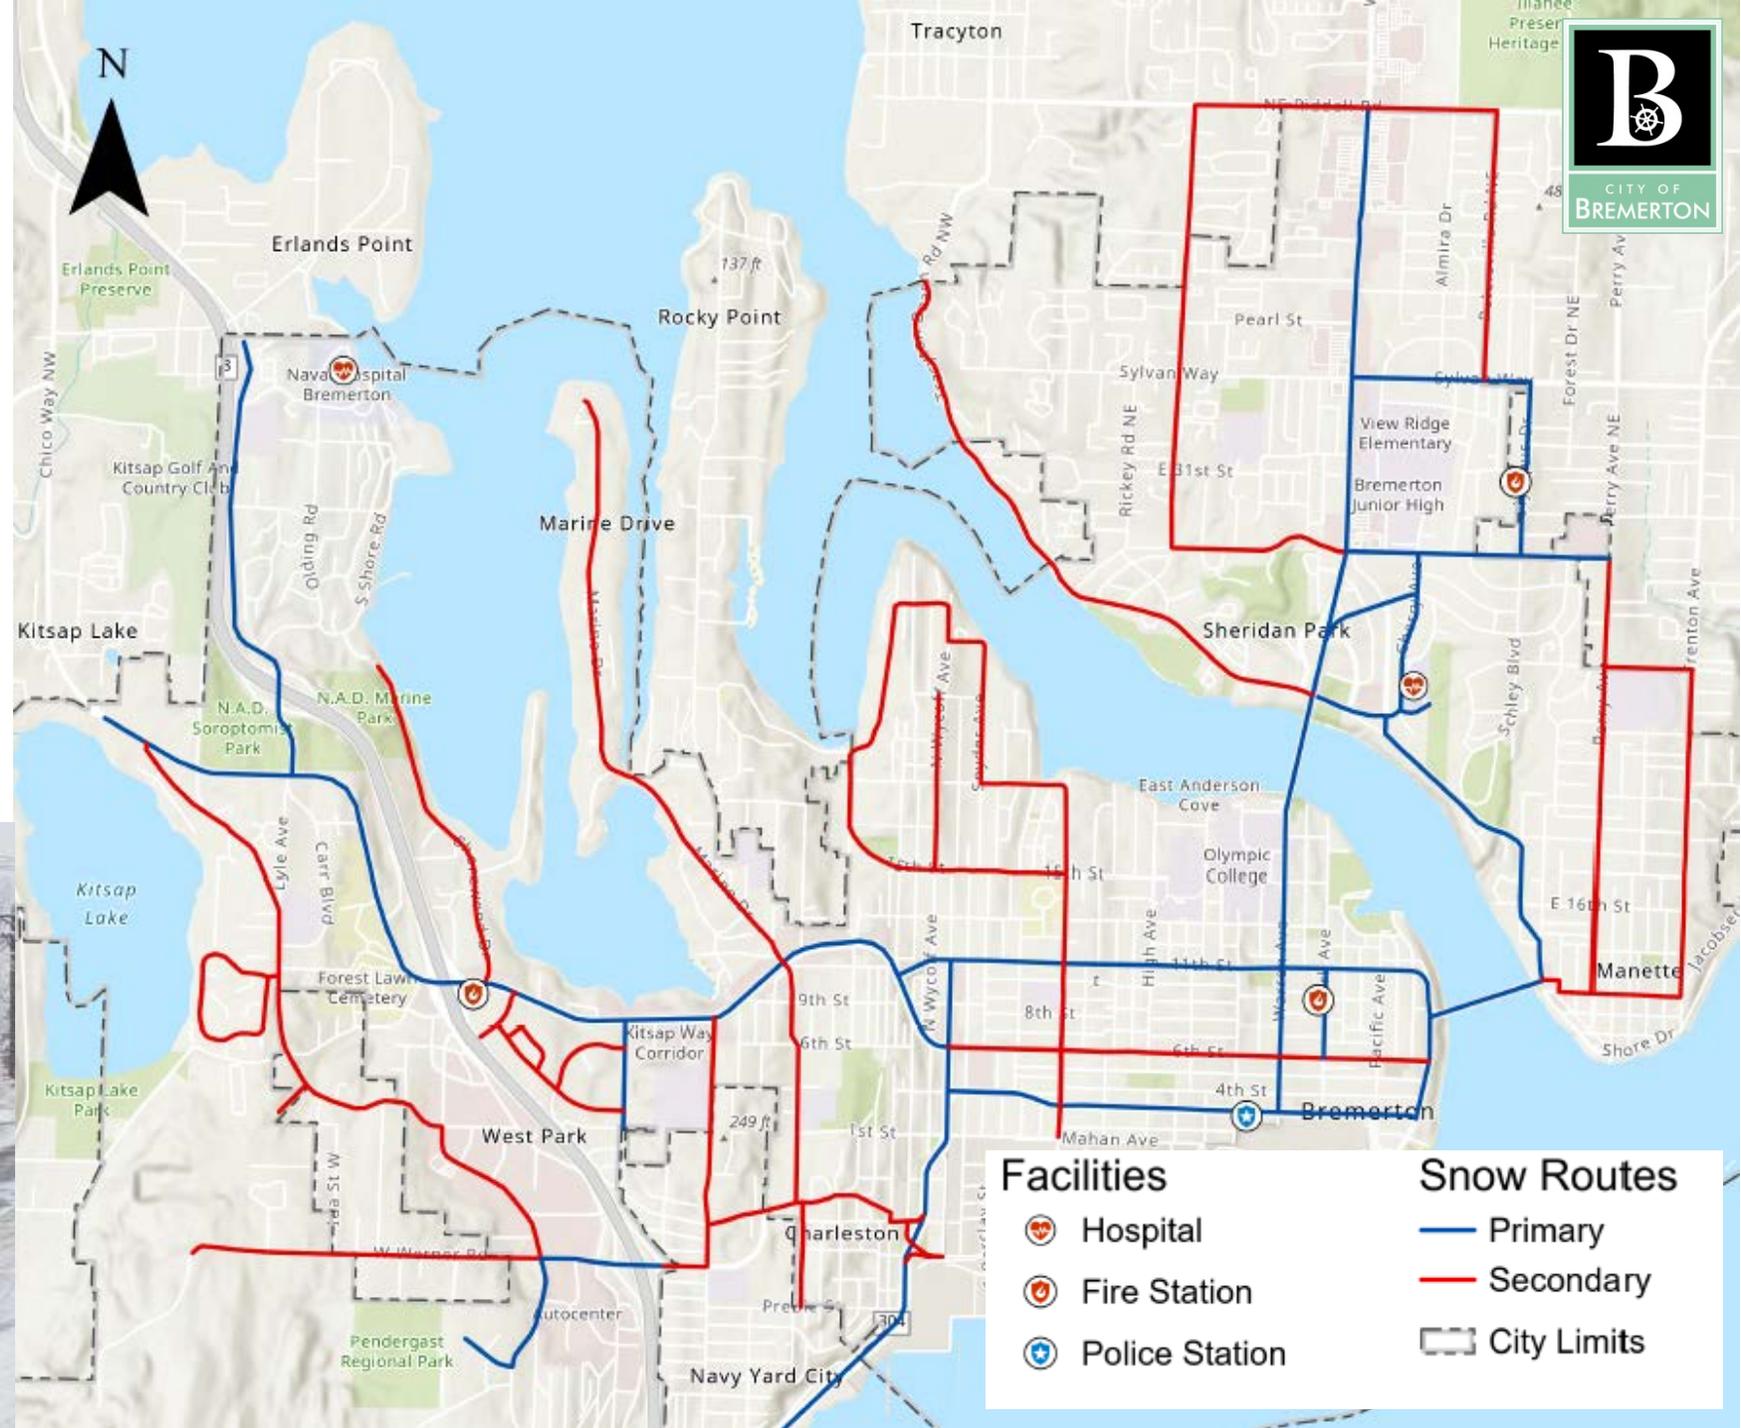

- Limited salt brine and sanding (bridges, arterials, hospital, other problem areas)

Level 2 – Extended Freezing

- Expanded salt brine and sand

Level 3 & 4 – Snow

- Sand and salt brine before
- Plow snow routes
- Clean-up afterward
- 12-hour shifts/24-hour

CITY SNOW AND ICE PROCEDURES

When freezing weather is forecast we get 6-trucks ready to plow, sand and apply salt brine. We have nearly 300-miles of road to plow – please be patient.

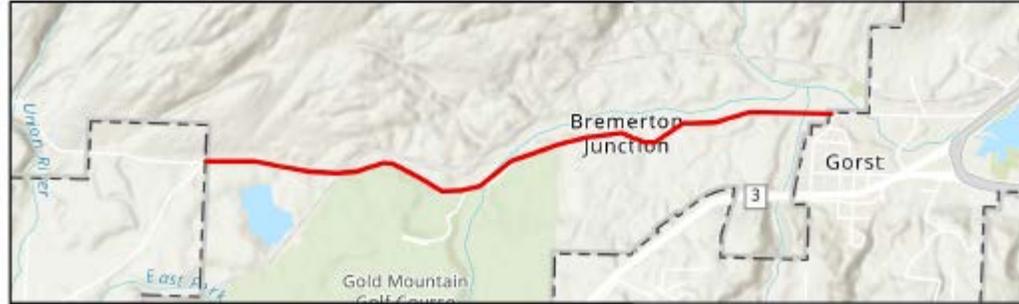

Facilities

-  Hospital
-  Fire Station
-  Police Station

Snow Routes

-  Primary
-  Secondary
-  City Limits

INCLEMENT WEATHER INFORMATION ON OUR WEBSITE

Go to the City's website (www.BremertonWA.gov/InclementWeather) for information on City procedures, and other agency information.

Waste Management (WM):

- WM drives routes early morning to assess conditions
- An “Out Dial” is made to all disrupted customers with a recovery plan (i.e. double load next week.)
- Customer service staff is available by phone for questions; 800-592-9995

Kitsap Transit:

- Supervisors check the local routes and weather conditions; 3 AM+/- and on-going as warranted
- Snow routes are implemented and Rider Alerts are provided (on the website, and via text if you're registered)
- Rider alerts are provided – on the website, and via text message if you've registered

Puget Sound Energy (PSE):

- High voltage transmission lines are restored first since they power up substations. Once stations are restored PSE patrols the circuits and restores based on critical customers (hospitals, critical services, commercial centers, etc.)
- PSE has [outage maps](#) that can be accessed on smart phones; phone number to report is 888-225-5773

Bremerton School District:

- The Route Manager reviews the route and makes a recommendation to the Superintendent on delays and closures
- Once decision is made, information goes to the media and on the website.

Washington State Dept. of Transportation (WSDOT):

- WSDOT reviews conditions and treats roadways with saturated salt. They have 6 trucks to plow and sand with more available.
- For major storms they use the Port Orchard Office as their Mgt HQ

Kitsap County Department of Emergency Management:

- Information on preparing for any disaster, and information on County planning
